

Environmental Policy

1. Measures to Reduce Environmental Impact

We will strive to reduce environmental impact at all stages of the value chain, including selection of delivery methods and development of services with less environmental impact, energy conservation, efficient use of water, and reduction of waste.

2. Compliance with Laws and Regulations

We will comply with applicable laws and regulations and strive to be a corporate citizen trusted by society.

3. Education and Awareness raising

We will make this policy known to all employees, educate them on environmental issues, and foster environmental awareness through measures such as promoting the use of "My Bottle" and paperless office environment.

4. Promotion of environmental information disclosure

We will actively disclose environmental information and promote transparency of information.

5. Biodiversity Considerations

We will engage in corporate activities with consideration for the conservation of biodiversity.

6. Position of the Environmental Policy

This policy complements BUYMA corporate behavior and covers all business activities including M&A, entry into new projects, and so forth.
