[Notes on Environmental Data]

- **1. Calculation Period:** February 1st through January 31st each fiscal year (same as the accounting period)
- **2. Scope of Data Calculation:** Enigmo Inc.

The coverage rate is 100%. The data for BUYMA Studio, which opened during the period, has been added to the data since the fiscal year ending January 31, 2023.

3. Calculation Method

■ Total Energy Consumption = Σ {(Annual consumption of fuel and electricity) x (heat conversion

factor by energy type¹)}

- **Scope 1 and 2** = Σ {(fuel and electricity consumption) x (CO₂ emission factor by energy type^①. ②)}
- **Scope 3** = Σ {(activity volume) x (CO₂ emissions factor per activity volume^{3, \oplus , \odot})}
- CO₂ Emissions Intensity = Σ {CO₂ total emissions of Scope 1 and 2 [t-CO₂] / Net sales [million yen])}
- Water Consumption: In conducting its business activities, we operate as a tenant occupant in its headquarters building and BUYMA Studio. In conducting business activities, toilets and kitchen rooms are located in common areas, and the building owner pays for the use of water, which means that water consumption on our side is 0, thus water consumption is 0m³.
- Total Waste = Industrial waste

♦ Source (Data Used)

- ①: Emission factor based on "Act on Promotion of Global Warming Countermeasures"
- ②: Adjusted emission factors given by each electricity provider published by Ministry of the Environment and Ministry of Economy, Trade and Industry

[Notes on Social Data]

- Calculation Period: February 1st through January 31st each fiscal year (same as the accounting period)
- Scope of Data Calculation: Enigmo Inc.

**The coverage of data is basically 100%, but in case the data is calculated based on the full-time employees only, it would not be 100% and its coverage will be shown with the mark* and explained below. In addition, the calculation method has been revised for some prior period data.

- *: The data is calculated based on the full-time employees only, so its coverage is 82.7% for the FYE 2024/1.
- *1: Revenue generating divisions are composed of social commerce, customer marketing, and new business development positions, and STEM (Science, Technology, Engineering and Mathematics) divisions are composed of system engineers and designers positions.

Independent Assurance Statement

April 23, 2024

Mr. Shokei Suda CEO Enigmo Inc.

1. Purpose

We, Sustainability Accounting Co., Ltd., have been engaged by Enigmo Inc., referred as "the Company" below, to provide limited assurance on the environmental performance data of the Company during the fiscal year ended January 2024, 652GJ of energy consumption, 8t-CO2 (Scope1), 23t-CO2 (Scope2, market-based) and 4,030t-CO2e (Scope3 Category1,2,3,4,5,6,7,9). The purpose of this process is to express our conclusion on whether the environmental performance data was calculated in accordance with the Company's standards. The Company's management is responsible for calculating the environmental performance data. Our responsibility is to independently carry out a limited assurance engagement and to express our assurance conclusion.

2. Procedures Performed

We conducted our assurance engagement in accordance with International Standard on Assurance Engagement 3000 (ISAE 3000) and International Standard on Assurance Engagement 3410 (ISAE 3410).

The key procedures we carried out include:

- · Interviewing the Company's responsible personnel to understand the Company's standards
- · Reviewing the Company's standards
- · Performing cross-checks on a sample basis and performing recalculation to determine whether the environmental performance data was made in accordance with the Company's standards.

3. Conclusion

Based on the procedures performed, nothing has come to our attention that causes us to believe that the environmental performance data has not been calculated in all material respects in accordance with the Company's standards.

We have no conflict of interest relationships with the Company.

Takashi Fukushima
